Wireless Internet

Now available on the Folsom Lake College Campus!

Requirements:

- Students who wish to use the wireless internet will need to bring their own WiFi-enabled laptop computer to campus. Folsom Lake College will NOT provide wireless cards.
- Most WiFi equipment will be compatible, but compatibility is not guaranteed.
- Folsom Lake College uses the WiFi standard (IEEE 802.11a, IEEE 802.11b, and IEEE 802.11g), providing students with high speed connection. [Speed varies by location and the number of users.]
- It is solely the responsibility of the wireless device owner/user to provide anti-virus protection, and to configure their wireless device to the appropriate security setting. Folsom Lake College will not take responsibility for damages incurred for incorrect, insufficient, or incomplete security settings; or lack of up-to-date virus protection.
- **Folsom Lake College cannot be responsible for any changes made to your computer.**
- Folsom Lake College faculty and staff will not help configure a student’s machine. Every computer is different, students will be responsible for knowing how to configure and operate their own equipment.
- Printers are not available to wireless users at this time.

Wireless Internet Use Policy

The following activities **are not allowed**:

- Transmitting unsolicited information that contains profane language, or panders to bigotry, sexism, or other forms of discrimination.
- Using the internet to gain unauthorized access to any computer.
- Engaging in personal attacks: writing bullying, intimidating, threatening or harassing entries.
- Making threats (directed towards others or yourself) without expecting the recipients of those threats, the college, and the police to consider them real.
- Transmitting information that contains obscene, indecent, lewd or lascivious material or other material where other individuals could potentially view it.
- Inappropriate mass mailing, which includes multiple mailing to newsgroups, mailing lists, or individuals, e.g. “spamming”, “flooding”, or “bombing”.
- Attempts by students to obtain, manipulate, delete, or change the contents of another user’s files, passwords, etc., are regarded as infractions of the January 1980 California Computer Crime Penal Code (Senate Bill No. 66). Attempts to ‘break’ the operating system constitute a felony under this law.
Connecting Microsoft Windows XP to Folsom Lake College’s Wireless Internet

1. Click the Wireless Internet Icon in your taskbar. (Default: Lower right hand side of the screen.)

2. Select the “flc_hotspot” wireless network. (When complete, “Manual” will change to “Connected”)

3. Click Connect
