Scholarship Sacramento is a project of Valley Vision geared at narrowing the gap between high school and post-secondary education by providing a foundation of local scholarship funding resources for students who reside in the Sacramento region. The project also provides assistance and support to students in completing multiple, and often competitive, scholarship applications to maximize their chances for success.

www.scholarshipsacramento.com, is a searchable online database of local scholarships – creating a place for high school students and counselors across the region to identify local scholarship opportunities.

Scholarship Support Days assist high school seniors in searching and applying for scholarships, with an emphasis on local opportunities. Through one-on-one advising and group mentoring, college students assist students in searching and applying for these funding resources.

Scholarship Support Nights educate students and their families about the value of local scholarships while encouraging them to apply.
