Reserve materials are supplementary resources instructors can make available to their students. These materials are kept behind the Circulation Counter and students need to request them by the item’s library call number. Please review the Guidelines for Placing Materials on Reserve on the reverse before completing the form below. Please allow three days for processing reserves when adding and removing items. We recommend submitting reserve items two weeks prior to the start of a semester to assure the items will be available to students on the first day of instruction.

<table>
<thead>

<tbody>
<tr>
<td>Course Name / Number</td>
<td>E-Mail</td>
</tr>
</tbody>
</table>

**Type of Reserve:**

- **Print** — Items such as books, journal articles, or multimedia. Items can circulate two hours to one week.
- **Electronic (e-Reserve)** — Items such as articles, a book chapter, study guides/exams written by the instructor. Items will be available online via the library catalog.
- **Both** — Items that qualify for e-Reserves can be placed concurrently on print and e-Reserve to allow for greater access to students.

**RESERVE ITEM INFORMATION**
