Become an FLC Peer Mentor!

Folsom Lake College is looking for students who are interested in serving as Peer Mentors for the 2015-2016 academic year.

Working with two new programs at FLC, Summer Bridge and First Year Experience (FYE), Peer Mentors assist new, first year students by serving as a resource to the Folsom Lake College campus. Peer Mentors meet with students, both in groups and individually, to address questions and/or concerns that may arise as students navigate their first year of college. Mentors provide essential and valued support and work in conjunction with faculty, staff, and administrators with student success in mind.

What is Summer Bridge?

During this program, students will be enrolled in HCD 310: College Success. Mentors will be working closely with HCD faculty and will be responsible for developing and leading team building activities, workshops, and presentations on each Friday of the 4 week program. Additionally, Mentors will meet with their assigned students in small groups. As needed, individual connections are made with students in need of additional support.

What is First Year Experience (FYE)?

This program places students in learning communities which are made up of English and math courses based on assessment results, and a Freshman Seminar course. Mentors work closely with faculty from all classes and are assigned a group of students to meet with regularly in order to provide insight, encouragement, and appropriate support.

Peer Mentor eligibility

- Completion of 24 units or more
- Folsom Lake College cumulative GPA of 3.00 or higher
- Have an outgoing, positive attitude, with a willingness to play a key role in student support

How to apply:

- Applications and a complete job description, pay information, and important dates can be found online at: www.flc.losrios.edu/student-services/student-success/student-success-programs
- Applications are due by April 10, 2015 to the Student Success Programs Office (FL4-128)
