REINSTATEMENT OF PRIORITY REGISTRATION REQUEST FORM

Please print clearly and legibly - Return completed request and proper documentation to the college Admissions & Records Office.

The California State Legislature requires colleges to adopt registration priorities based on factors such as number of units completed, grade point average, and other considerations. Students who have lost priority registration and have been moved to open registration may appeal to have it reinstated based on verifiable evidence of factors outside their control. The law reads:

“Each community college district shall establish written procedures by which a student may appeal the loss of priority enrollment due to extenuating circumstances, or where a student with a disability applied for, but did not receive reasonable accommodation in a timely manner. Extenuating circumstances are verified cases of accident, illnesses or other circumstances beyond the control of the student. Districts may exempt from the 90 unit limit categories of students, including but not limited to, those enrolled in high unit majors or programs. Districts may allow students who have demonstrated significant academic improvement to appeal the loss of priority registration status.” (Title 5, §58108)
